

EI35 Laminated transformers 2.4VA Series

Low Frequency, Open-Style Laminated, Split Bobbin, Horizontal Plug-In Series

Features

- ✧ High (2500V) isolation; 2500VRMS HIPOT
- ✧ Non-concentric design - eliminates ESS
- ✧ No crossover between primary/secondary winding leads
- ✧ Vacuum impregnated - withstands board washing systems and reduces audible noise
- ✧ Baked resin provides an environmentally-resistant finish
- ✧ Rugged construction - no additional mounting hardware
- ✧ Universal design, fits industry-standard footprints
- ✧ Available in single or dual primary

Mechanical:mm
